SKILLS

Web Development:

Java/Spring Boot,
Python/Django/FastAPI, Node.js ,
Angular, React, Bootstrap.

DevOps & Cloud:

Docker, Kubernetes, Jenkins, GitLab
CI/CD, GitHub Actions, Terraform,
AWS, Azure.

Intelligence Artificielle & ML:

LLMs, LangChain, RAG, Scikit-learn,
Pandas, NumPy, ChromaDB,
TensorFlow, Keras, PyTorch.

Data Engineering:

SQL, Apache Spark, Hadoop, ETL, Data
Warehousing, Big Query.

Database:

SQL Server, PostgreSQL, MySQL,
MongoDB.

Mobile Development:

Flutter , React Native, Android, KMP,
Dart.

EDUCATION

Master in MIAGE – Mobility, Big Data & Systems Integration (MBDS)

Université Côte d'Azur - Casablanca - From 2021 to 2025

Engineer in Computer Science & Networks | OPTIOM (MIAGE)

École Marocaine des Sciences de l'Ingénieur (EMSI) - Casablanca - From 2021 to 2025

Scientific Baccalaureate

Groupe Scolaire Cordoba - Casablanca - From 2018 to 2019

WORK EXPERIENCE

Data & AI Engineer

JESA S.A - Casablanca, Morocco - From March 2025 to September 2025

- Developed a **multi-agent conversational interface** using LLMs (Groq, LangChain, FastAPI).
- SQL Agent:** optimized querying of relational databases (SQL Server, pyodbc).
- CSV Agent:** automated ingestion and synchronization of files (Pandas, Matplotlib).
- API Graph Agent:** integration and utilization of external data via APIs.

DevOps & Full Stack

Nomatis - Rabat - From July 2024 to September 2024

- Implemented **CI/CD pipelines** with Azure DevOps and GitHub Actions, reducing deployment time by 40% and increasing release frequency by 60%.
- Designed and developed **scalable web applications** with Spring Boot and Angular, improving B2B/B2C account management efficiency by 30%.
- Built an **interactive dashboard**, enhancing decision-making processes by 25% through real-time data visualization.

Data Science

CodSoft - India - From July 2024 to August 2024

- Developed **ML models** for movie rating prediction and fraud detection.
- Implemented **data pipelines** using Python and scikit-learn.
- Deployed **predictive analytics solutions** with performance optimization.

Web Developer

Extra Room - Casablanca - From July 2023 to August 2023

- Designed and developed a **stock management application** using PHP and Bootstrap.
- Conducted **unit testing** with PHPUnit.
- Performance optimization**, reducing errors by 15%.

ACADEMIC PROJECTS

Intelligent Productivity Management Platform

- Developed a **full MERN stack web application** and **React Native mobile app**.
- Integrated an **AI chatbot** providing personalized productivity advice.
- Designed a **dynamic dashboard** to track tasks and habits.
- Implemented **automated analysis** with proactive suggestions and alerts.
- Enhanced **user engagement** through an intuitive interface and focus mode.

Student Document Request System

- Developed a **full-stack application** with Spring Boot and Bootstrap.
- Implemented a **microservices architecture**.
- Configured **CI/CD pipelines** with Git and Docker containerization.
- Deployed using **Azure Container Registry**.

Mobile E-commerce Application

- Developed a **mobile app using Flutter** with **Firebase integration**.
- Implemented a **cloud-native architecture**.
- Integrated **payment features and order management** functionality.

Hotel Management System

- Developed an **application using Python/Django**.
- Deployed on **AWS EC2** using **Terraform IaC**.
- Managed **reservations and client data**.
